

DESIGN AN ALIEN FOR OUR NEXT FULLDOME SHOW!

Your creation could star in Life: The Greatest Story in our Planetarium this summer. Plus, you'll win an annual science centre membership!

THE CHALLENGE:

Design an alien and describe its home planet or moon. How has it evolved to survive in its unique environment?

THINGS TO CONSIDER:

What is the environment like?
(Hot, cold, dark, bright, high or low gravity?)

How does your alien move?
(Fly, swim, crawl, bounce?)

What special features help it survive?
(Extra limbs, protective shells, unusual eyes?)

How does it sense the world?
(See in the dark, feel vibrations, detect dangers?)

What does it eat and how?

REMEMBER!

The best aliens aren't just unusual looking, they can survive on their home planet.

HOW TO ENTER:

To enter, email a photo of your design to competitions@life.org.uk by 28 April 2025. Remember to include your name and age.

Alternatively, hand this sheet to a member of the Life team in the science centre. Just remember to include a contact email so we can get in touch!

Competition T&Cs. Prize consists of the following: Life Science Centre annual membership (choose 1 adult and 3 child passes or 2 adult and 2 child passes). Prize is non-refundable and non-transferable. Already a member? You can win an extra 12 months on your current membership. No cash alternative available. Competition will close on 28/04/25. All entrants into the competition agree to their submissions being used for marketing purposes.
