## Transport | Home Activity Outline

# Transport Passport

### Task:

Pupils will identify 5 forms of transport and outline the source of energy this transport uses.

This activity asks pupils to consider transport they use in their everyday lives and the source of energy they use.

### Resources

**Home Activity Worksheet – Transport Passport**

### Activity

In class we have been learning how the future of our transport is moving away from fossil fuels, and towards being powered by renewable energy.

Using **Home Activity Worksheet – Transport Passport**, pupils will identify 5 modes of transport from descriptions of how they use energy, and identify the source of renewable energy that they use.
